About Me

Name: Walid Khan
Location: Pakistan
Education: Bachelor's degree in Artificial Intelligence from university of Engineering and technologhy Mardan.
Experience:

- Completed multiple projects in AI, Machine Learning, and Web Development.
- Hands-on experience with Python, FastAPI, LangChain, and AI model integrations.
- Developed document Q&A tools and custom AI agents for practical applications.

Skills:

- Programming: Python, JavaScript, SQL
- AI & ML: PyTorch, Hugging Face, LangChain, GPT/GROQ APIs
- Data Processing: Pandas, NumPy, PDF & DOCX handling
- Web & Tools: FastAPI, Gradio, REST APIs, Web scraping

Hobbies & Interests:

- Exploring new AI tools and frameworks
- Reading tech blogs and research papers
- Problem-solving and algorithm challenges

Summary:
I am a motivated AI developer with a strong foundation in machine learning, natural language processing, and system integration. I enjoy building tools that solve real-world problems efficiently and continuously improving my skills through practical projects and collaborative learning.
